& started working as a 1st AD in 1993

Currently living in Sydney, Australia.

I have a UK and Australian Passport

Experience

Over 30 years as a 1st AD in TV commercials I have travelled to, and worked in nearly every continent in the world, from the extreme heat of deserts to sub zero temperatures of glaciers.

Filming underground, underwater and in the air. I have had the pleasure to work with some extremely talented directors and producers, as well a great number of actors, dancers, sports stars, animals , artists, celebrities, politicians, stunt teams, musicians & of course the very generous general public, stretching over many years and in countless different situations and languages, leaving me privileged to bring an exteme depth of experience to any project.

I have also worked on some longer form projects as 1st AD with directors like Jane Campion, Trent O'Donnell and Mark Molloy
