I have been a 1st AD for 15 years. My work has included planning and executing complex projects in unique locations all around the world. This has included work on land, sea and air, with stunts, A-List Cast, hundreds of extras, animals, VFX, SFX, animatronics, puppets, prosthetics and all kinds of vehicle rigs for camera, lighting and props.

In the last two decades I have been stepfather to three young women and partner to a psychotherapist. I am comfortable and capable in complex situations, and revel in problem-solving.
